INDUSTRIAL OVERHEAD DOORS

SECTIONAL INDUSTRIAL DOORS

Sectional industrial doors are ideal to save interior space, as they are placed vertically next to the wall, or parallel to the roof. They can be modified to any building type and design, and are also known for their resilience and various designs.

COMERCIAL HIGHSPEED DOORS

HIGH SPEED DOORS

Created for isolating sound and maintaining indoor temperature through thermal insulation, The High Speed Doors are also flexible and compact, and are ideal for laborious usage in an environment that involves a high flow of traffic.

The doors have an attractive look and finish using lacquered aluminum structure and fixed to the wall with galvanized steel screws.

- Part opening possible.
A wider range of safety & convenience accessories can be connected.
- A backup battery can be incorporated in motor unit to cater for power cuts
- **Garage door security features**
 - Burglar-proof lock.
 - Alarm siren triggered
- **Compatible with solar power supply**

Technical characteristics	DEXXO PRO 800 3S RTS	DEXXO PRO 1000 3S RTS
Applications		
Motor voltage	24 V-DC	
Max power consumption in operation	600 W (with 500 W separate lighting unit)	
Traction force - peak force	800 N	1000 N
Maximum power consumption on standby	5 W	
Maximum number of operations/day	20 (standard rail), 50 (high-performance rail)	
Maximum speed	18 cm/s	
Operating temperature	°20-C / °60+C	
RTS radio frequency	433.42 MHz	
Number of remote controls that can be memorized	32	
Tested for	36,500 cycles (standard rail) - 90,000 cycles
